

My Disability Can Not Stop Me :- Budhu Munda

**Before Intervention:-**

The boy Named Budhu Munda Belongs to Kandasara, basantapur, a tribal village of keonjhar dist. He is an orphan child & taken Care by his elder siblings. He is a Spastic diaplagic Cerebral palsy child. He belongs to a low Socio economic Status & nuclear family. His Father's name is late Laxmidhara Munda & Mother is late Mani Munda. They are 3 bothers & 2 Sisters, budhu is the younger one. His family members are surrounded by lots of blind beliefs & superistitions. That's why the child was not easily accepted by them. They were not taken care of him properly & even not given him any kind of medical treatment.

**During Intervention:-**

Our SADBHABANA awareness camp was held at Basantapur in the year 2017. The child was identified by the team members of SADBHABANA, keonjhar. His brother convinced by our team members & then came to our centre with the child. When Budhu was came to our centre he suffered from frequent convulsion. He was unable to move his lower limb, unable to Crossed leg sitting unable to Crawling, unable to move from one place to another. He is unable to do his ADL Activities Properly like Brushing , Combing, eating, dressing etc.

He is totally dependent & he has no basic education.

Though he is spastic diaplegic cerebral child our therapists given treatment like sstretching of tight structure for reduce muscle tightness & improve bloud circulation, PNF, Brizuing Exercise for improve trunk balance keeling for improve Quadricep Musule Strengsh & trunk contrd, sit to stand, electrical stimulation like Faradic Stimulation for improve muscle power & improve blood Circulation, Strengthening of abdominal & pelvic muscle, maintain the proper positioning , parallal bar waling etc. With ADL activities training such as brushing, combing feeding etc. Our Special educators gave the education covers five areas like Personal skills, social skills Academic skills, occupational & Recreational skills.

**After Intervention:-**

After 3 years of our Therapeutic & Special educational intervention now the child is able to do the following works. Like do his ADL activities independently (EX: Brushing, combing, Feeding ), his Socialization Skill is also developed Now he is able to Stand & walk with parallal bar support, able to move from one place to another place with wheel chair. Now he can recognize his name know about his body parts, fruits etc. He also can able to play with his Friends & enjoy the activities like ball throw, ludo carom ect.

After intervention of organization we are able to remove the social stigma in which the entire family was before. We already facilitated for disable pension, Banishree Scholarship & UDID.
